

Naimuddin Alam

Senior Java Developer | Spring Boot |
Microservices | Kafka | REST APIs |
Flutter | 8 Years Experience

naimuddinalam12@gmail.com

+91 8791966956

Ghaziabad, India

Senior Software Engineer with 8 years of experience in software development, including 5+ years of expertise in Java, Spring Boot, Microservices, and Apache Kafka. Experienced in designing and developing scalable RESTful APIs, event-driven architectures, and distributed systems for enterprise and government applications. Strong hands-on experience with Spring Security, JWT Authentication, Hibernate, JPA, PostgreSQL, Oracle, Docker, and CI/CD pipelines. Skilled in implementing Microservices Architecture, API Gateway, Service Discovery, and Kafka-based asynchronous communication. Proficient in system design, design patterns, SOLID principles, and clean architecture. Additionally experienced in Flutter and Android application development, delivering cross-platform mobile solutions integrated with modern backend systems.

EDUCATION

- B.Tech**
Dr. A.P.J. Abdul Kalam Technical University,
Lucknow
06/2013 - 07/2017 Lucknow

WORK EXPERIENCE

- Senior Software Engineer**
Medayes Futuregen Softwares Pvt. Ltd
12/2023 - Present Ghaziabad, Uttar Pradesh
Achievements/Tasks
 - Developed scalable backend services using Java and Spring Boot. Designed and implemented Microservices Architecture. Built RESTful APIs serving enterprise applications. Implemented Spring Security and JWT Authentication. Developed Kafka-based event-driven services. Integrated Sql Server, Hibernate, and JPA. Containerized applications using Docker. Collaborated with Flutter and Android teams for API integration.
- Senior Software Engineer**
National Informatics Centre (NIC)
01/2021 - 10/2023 Delhi
Achievements/Tasks
 - Designed and developed scalable backend services using **Java and Spring Boot** Developed **REST APIs and Microservices architecture** Implemented **Spring Security, JWT authentication, and role-based authorization** Integrated databases using **Hibernate, JPA, PostgreSQL, and Oracle** Developed event-driven services using **Kafka** Containerized applications using **Docker** Integrated backend APIs with Flutter mobile applications Improved system performance, scalability, and reliability
- Sr.MobileDeveloper**
Medayes Futuregen Softwares Pvt. Ltd
01/2018 - 11/2020 Ghaziabad, Uttar Pradesh
Achievements/Tasks
 - Developed a wide range of **Android and Flutter applications**, including **E-commerce platforms, Attendance Management Systems, ERP solutions, and Survey applications**, catering to diverse business needs. Delivered **feature-rich E-commerce apps** with functionalities like product listings, real-time inventory updates, secure payment gateways, and order tracking.

SKILLS

- Java 8/11/17/21 Spring Boot Microservices
- Apache Kafka REST APIs Spring Security
- JWT Hibernate JPA Docker
- SOLID Principles Sql Server CI/CD Pipeline
- Flutter Android IOS Unit Testing
